Pod Bottom Crossover Assembly

The UMS Flowell Pod Bottom Crossover connects the pod casing to the tailpipe below the pod.

A 10ft casing pup joint and a 6ft tubing pup joint are made up to the crossover to act as saver subs, allowing the assembly to be picked up from the pipe deck, ready to be made up to the completion string.

UMS Flowell
Performance Under Pressure

Pod Bottom Crossover Assembly

Features & Benefits

- Coupled or flush joint casing connections to suit the pod casing
- 5-1/2" to 10-3/4" pod casing sizes available
- Thread connections to meet customer requirements
- Box x Pin configuration

Specifications

- Low alloy steel or 13Cr material options
- API 5CT
